

THE POWER OF THE PAW MEANS THE POWER OF RELIABILITY. AND VALUE.

UNIROYAL[®] DATA BOOK

PASSENGER AND LIGHT TRUCK TIRES
AUGUST 2021

UNIROYAL[®]

EXPANDING OUR GRIP ON THE MARKET

If all of us have learned one thing over the past year, it's that the future is truly unpredictable.

So how do you deal with such disruption, uncertainties and unpredictability?

Here's how: You create your own future. And you look to those who will be a part of it.

UNIROYAL® has been doing that for well over 100 years. And now, we're doing it in bigger and more meaningful ways than perhaps ever before.

Recently, we expanded our UNIROYAL® TIGER PAW® line of tires so that we have a tire for virtually every passenger car and CUV/SUV on the road in America today.

But beyond that, we've taken our many important attributes; affordability, reliability, durability, and attached them to a younger, more receptive audience that wants to do business with enduring brands that provide real, authentic value.

UNIROYAL has always been about making your family feel secure and comfortable, both in terms of the ride we provide, and the price we charge. Now, we're talking to the newest generation of drivers as well.

Those who are just beginning their careers, starting new jobs, graduating from school and who care dearly about what they get in return for what they pay.

The UNIROYAL story fits perfectly with their lives and their goals. UNIROYAL provides them with one less thing to worry about, an extra boost of confidence without the extra cost associated with so many other tires.

So the next time a Gen Z customer or even a Millennial walks into your store, show them that you get them.

Make a loyal customer by recommending the affordable, dependable value tire that gets them where they're going in a way that lets them do what they really want to do... concentrate on their lives and their futures.

UNIROYAL®

TIGER PAW® AWP II

A long time favorite available with a classic white sidewall design.

ALL-SEASON TIRE

FEATURES AND BENEFITS

- All-Season tire available with a classic white sidewall design.**
All-Season tread compound.
- Delivers a quiet and comfortable ride.**
Computer-phased tread design.
- Long, even treadwear with a 65,000-mile warranty.**
Optimized footprint shape.

There's 125 years of history behind our tires.

Founded in 1892 as the U.S. Rubber Company, we've been making tires for almost as long as there have been automobiles to put them on and roads to drive on. Over all those years and over all those miles, we've become a trusted brand in the lives of millions of American drivers.

UNIROYAL®

TIGER PAW® ICE & SNOW™ 3

UNIROYAL® TIGER PAW® Ice & Snow™ 3, the affordable winter tire, providing enhanced dependability in all winter conditions — snow,¹ ice,² and wet.³

WINTER TIRE

FEATURES AND BENEFITS

Enhanced traction in snow and on ice.

Highly siped tread surface with 3D interlocking shoulder sipes and wide lateral tread grooves. Molded for studs (size #12 studs, where permitted by law).

Improved grip in cold weather.

Latest winter compound technology that maintains molecular adhesion and tread flexibility at low temperatures.

Durable and reliable in all winter conditions.

Patented DuraShield® construction.

MOLDED FOR STUDS

To offer enhanced traction on packed snow¹ and ice²

¹ Based on third-party snow traction tests using ASTM Test Method F1805-12 in size 205/55R16 91T versus previous generation UNIROYAL® TIGER PAW® Ice & Snow™ II Tire in size 205/55R16 91S. Actual on-road results may vary.

² Based on third-party ice traction and snow traction tests using ASTM Test Method F1805-12 in size 205/55R16 91T versus previous generation UNIROYAL® TIGER PAW® Ice & Snow™ II Tire in size 205/55R16 91S. Actual on road results may vary.

³ Based on internal wet braking results from both 80 km/h and 96 km/h using a 2013 Honda Civic in size 205/55R16 91T versus previous generation UNIROYAL® TIGER PAW® Ice & Snow™ II Tire in size 205/55R16 91S. Actual on-road results may vary.

UNIROYAL®

LAREDO® CROSS COUNTRY TOUR

The affordable SUV, CUV and light truck tire with the perfect combination of durability, long-lasting wear and all-season performance.

ALL-SEASON TIRE

FEATURES AND BENEFITS

- **A comfortable and quiet highway ride.**
Computer-phased tread design.
- **Evacuates water fast for optimal traction on wet pavement.**
Wide, circumferential (tread) grooves.
- **Offers durability and reliability on the road, with a 60,000-mile manufacturer's limited warranty.**
Solid shoulder tread block design.

The perfect tire for your everyday adventures.

For more than a century, we've been getting drivers to important places, even if it's just to drop the kids off or to pick up the groceries. The UNIROYAL® LAREDO® Cross Country Tour is for those SUV, CUV and light truck drivers who may be off-loading more than off-roading, but who still need a hard-working tire.

UNIROYAL®

LAREDO® CROSS COUNTRY

A quality SUV/light truck tire featuring raised white lettering.

FEATURES AND BENEFITS

- **Long, even treadwear.**
Solid shoulder tread block design.
- **Enhances off-pavement traction and helps improve tread life.**
Full tread depth.
- **Wet grip and all-season traction that sticks to the road.**
Optimized tread compound.

BUDGET.**

**IT'S TOUGH
ON TERRAIN,
NOT ON WALLETS.**

UNIROYAL®
LAREDO®
HD/H™

The durable commercial tire for everyday job sites.

FEATURES AND BENEFITS

- **Absorbs impacts and carries heavy loads.**
 Two polyester carcass plies.
- **Provides all-season traction.**
 Deep Lateral grooves and sipes.
- **Delivers long, even treadwear.**
 Solid shoulder tread block design.

Tires so tough we named them after our testing track.

The UNIROYAL® LAREDO® brand of tires got its name from our 5-mile testing track in Laredo, Texas. We've tested our CUV/SUV/light truck tires to make sure you can get almost anywhere on these durable tires.

SPEED RATING REFERENCE TABLE

SPEED SYMBOL	SPEED CATEGORY (MAX SPEED)	OPEN ENDED SPEED CATEGORY
Q	100 mph	
R	106 mph	
S	112 mph	
T	118 mph	
U	124 mph	
H	130 mph	
V	149 mph	
W	168 mph	*ZR
Y	186 mph	↓
(Y)	Above 186 mph	

*ZR Speed Rating Defined

For tires having a maximum speed capability above 240 km/h (149 mph), a “Z” may appear in the tire size designation. For tires having a maximum speed capability above 300 km/h (186 mph), a “Z” must appear in the size designation and the service description must include a “Y” in parenthesis. Consult the tire manufacturer for the tire’s maximum speed capability when there is no service description.

EXAMPLE:	Tire Designation	Maximum Speed
	P275/40ZR17	Above 240 km/h (149 mph)
	P275/40R17 93Y	300 km/h (186 mph)
	P275/40ZR17 93Y	300 km/h (186 mph)
	P275/40R17 (93Y)	Above 300 km/h (186 mph)
		Consult the tire manufacturer

Note: Exceeding the lawful speed limit is neither recommended nor endorsed.

IMPORTANT PRODUCT NOTIFICATIONS

Passenger sizes used in CUV/SUV/Light Truck applications have reduced load capacity. This will differ from the maximum load branded on the tire sidewall. Government UTQG Ratings do not apply to light truck sized tires or winter tires.

1. The sizes shown are average design values for tires measured on specified measuring rim widths. Some tires may vary from this value by +/-3% of the section height (affecting overall diameter), and +/-4% of the section width.
2. Section width varies approximately 0.2" (5 mm) for every 0.5" change in rim width.
3. Tread patterns are often tuned to accommodate different tire widths. Tires for a particular dimension of a given tire line may vary in appearance from the tire shown in the photograph.

WARNING: Serious or fatal injury may result from tire failure due to underinflation or overloading. To ensure correct air pressure and vehicle load, refer to vehicle owner's manual or tire information placard on the vehicle. Serious injury or death may result from explosion of tire/rim assembly due to improper mounting. Only tire professionals should mount tires and they should never inflate beyond 40 psi to seat the beads. Before mixing types of tires in any configuration on any vehicle, be sure to check the vehicle owner's manual for its recommendations.

DANGER: Never mount a 16" diameter tire on a 16.5" rim.
DANGER: Never mount a 17" diameter tire on a 17.5" rim.

Inflation pressure increase must not exceed the maximum pressure branded on the tire sidewall. When a customer requests a replacement tire with a lower speed rating than the original equipment tire, you must clearly communicate to him or her that the handling of the vehicle may be different, and that its maximum speed capability is limited to that of the lowest speed-rated tire on the vehicle. Exceeding the lawful speed limit is neither recommended nor endorsed.

For high-speed driving, additional inflation pressure and possibly reduced tire loading and/or upsizing is required. In the absence of specific recommendations by the vehicle manufacturer, use the following guidelines based on those in the European Tyre and Rim Technical Organization Standards Manual.

For speeds over 100 mph (160 km/h), load and inflation must be adjusted according to the table below.

OE Code [Original Equipment Key]: GM = General Motors

Government UTQG Ratings do not apply to Light Truck tires that are LT metric or flotation size.

For all P-metric sizes: Passenger sizes used in Light Truck/SUV applications have reduced load capacity. This will differ from the maximum load branded on the tire sidewall.

XL=Extra Load

For speeds above 186 mph (300 km/h), consult your vehicle manufacturer and tire dealer.
